Why Us

100 years of excellence in equipping and supporting science and research in India

World-class products and solutions – designed in Germany, manufactured in India

International project experience to offer the best design elements

Comprehensive design-build solutions including MEP services

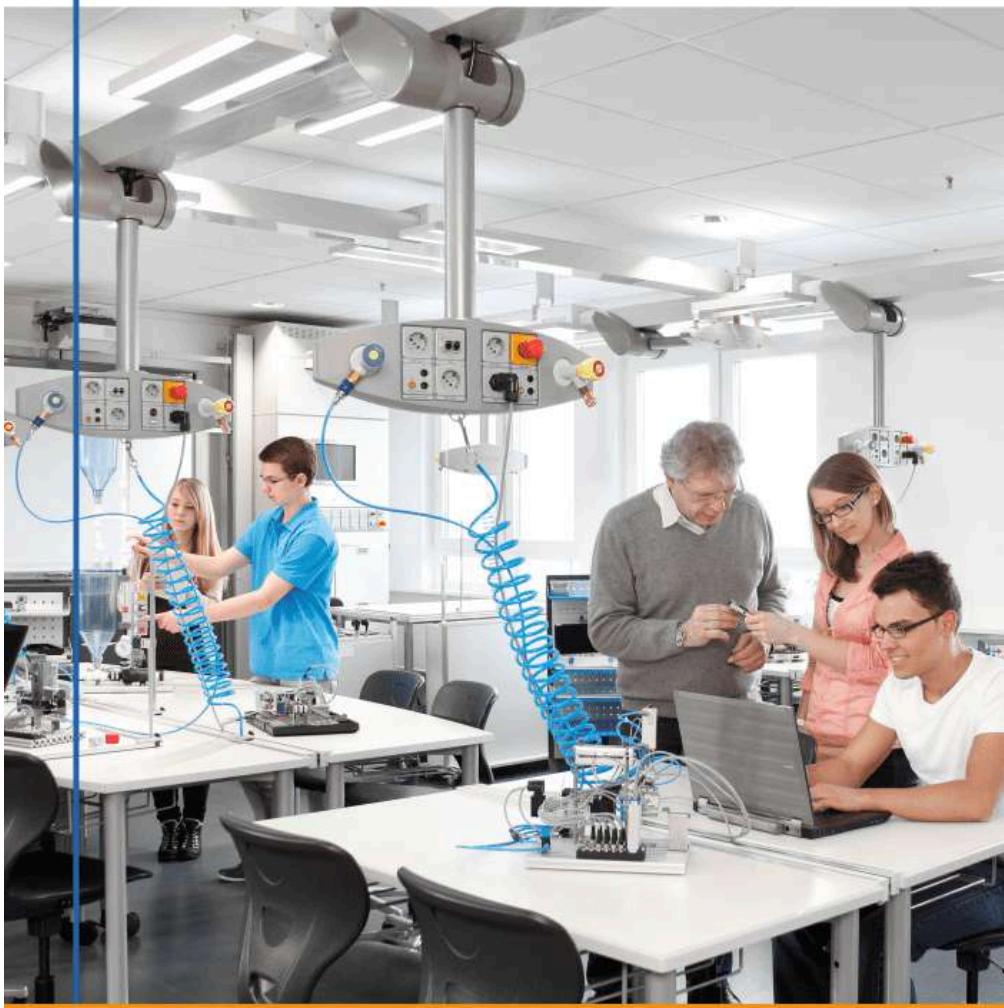

Unmatched service and faster project turnaround time

Highly responsive service network backed by experienced technicians and original spare parts

Bespoke Solutions for Every Industry Need

GD Waldner is a one-stop turnkey solutions provider for all applications across scientific research and discovery. Across diverse sectors, we offer comprehensive and customised

design-build solutions, including Facility Design, HVAC, Gas Piping, Electrical, Interiors, and BMS.

Pharmaceutical

Chemicals

Biotechnology & Life Sciences

Electric Mobility

Education

Food and Beverage

Testing And Research

Turnkey Laboratory Solutions

Comprehensive Solutions

Backed by in-house domain knowledge and extensive design expertise, our solutions address the entire spectrum of Mechanical, Electric, and Plumbing (MEP) needs of laboratories.

HVAC

Electrical Systems

Firefighting Systems

Gas Distribution Systems

Extra Low Voltage (ELV)

Integrated Building Management System

Public Health Engineering

Interiors

Build Process

As a one-stop provider, we ensure meticulously harmonised, refined, and interconnected laboratory ecosystems that prioritise adaptability, safety, and energy efficiency. Our 10-step process covers the entire project life cycle.
